

Dual Voltage Rating on Residential Electric Water Heaters

Dual Voltage Rating on Residential Electric Water Heaters

Rheem Residential Electric Water heaters are dual rated for 240 and 208 Volts AC single phase operation. This does not include 120 volt AC point of use water heaters, or units specifically configured for 208 volt AC operation. Please refer to the rating label for the specified voltage and wattage rating.

Common Element Voltage Ratings		
Voltage	Wattage	Recovery* GPH
240 / 208	3000 / 2255	14 / 10
240 / 208	3500 / 2630	16 / 12
240 / 208	3800 / 2855	17 / 13
240 / 208	4500 / 3380	21 / 16
240 / 208	5000 / 3755	23 / 17
240 / 208	5500 / 4130	25 / 19
240 / 208	6000 / 4500	27 / 21

Recovery*: based on 90°F temperature rise in gallons per hour.
