

# Raymote™

**SMARTER  
CONTROLS**

**MAXIMUM  
CONNECTIVITY**

**REMOTELY MONITOR**  
and control your boiler,  
water or pool heater  
from anywhere!

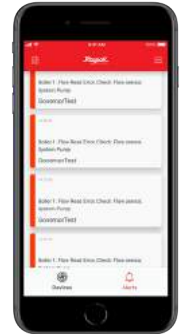

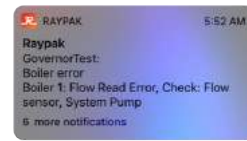

**Raypak®**  
A Rheem® Company

## Mobile app or Web dashboard

Raymote allows you to remotely monitor your boilers, water or pool heaters. With touch-of-a-button access to vital information, it aids in decision making, cost-saving improvements and reduces downtime.

- Real time service notifications keep you informed and prepared.
- Preventive maintenance reminders.
- Easy to understand “service-needed” notifications.
- Instant visibility to historical data and performance reports.

View and manage your Raypak systems at multiple sites.

Allow multiple users access.

1 year of service included.

Raymote retrofit kits available for installed products with the VERSA IC® touchscreen.

Standard on all products with VERSA IC touchscreen: XVers™, XTherm®, XTherm Professional Indirect™ and MVB®.

### Download the free Raymote app today!

1. Connect to Wi-Fi
2. Register your units and set your preferences
3. Add additional users

You are set to remotely access your Raypak equipment!

Available in the Apple® App Store® and Google Play™ store.
