

Model: GF901U 90% UpFlow Gas Furnace

- **Integrated Furnace control**

Integrated control board manages all operational functions and provides accessory hookups for an electronic air cleaner.

- **Draft Inducer**

Quietly provides air for combustion while venting the products of combustion from the heat exchanger outdoors.

- **Direct Spark Ignition & Remote Sensor**

The direct spark ignition is an efficient method of gas ignition while the remote sensor monitors the flame.

- **In-Shot Burners**

Regulates the air/gas mixture.

- **Blower Motor**

An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.

- **Primary and Secondary Exchanger**

Provides reliable and efficient comfort to your home by delivering heat quickly and evenly by extracting additional heat which is lost by less efficient furnaces.

- **High Efficiency 92% A.F.U.E. and above Upflow Models**

- **Heating Capacities from 45,000, 60,000, 75,000, 105,000 & 120,000**

Limited Warranty:

- Parts – 5 Years
- Heat Exchanger – 10 Years

Real People. Real Savings. Real Fast.
