The Features You Want

1. The Copeland® Compliant Scroll® Compressor

Uses an advanced technology that has fewer moving parts, is quieter, and longer lasting.

2. Durable Cabinet / Water Management

The low-profile cabinet features a durable powder-paint finish for superior protection from the elements. Louvered panel kits are also available for added protection of the condensing coil.

Water Management:

- One-piece top over indoor section
- Drawn, painted durable base pan
- 1" raised flanges for supply/return air connections

3. 1" Factory Installed Filter

There are also provisions for field installed 2" filters.

4. High Static Motor Options

Direct or belt-drive options available to accommodate design conditions up to 1.5" of external static pressure.

5. Control Box Access

Our integrated solid-state control board uses proven, dependable computer technology to control all cooling and heating operations reliably and efficiently. These models also feature on-board diagnostics for easier troubleshooting.

6. Optional Electric Heater Kits

Factory or field installed kits available up to 24 kW.

7. Forkable Base Rails

Allows for easy maneuvering and installation.

Limited Warranty Information

All of our Ruud package units were developed with reliability and durability in mind. The Copeland® Compliant Scroll® Compressor features a five-year limited warranty on all 13 SEER models, and on 14 SEER single and three-phase models installed in commercial applications. In addition, a 10-year limited warranty is offered on 14 SEER, single-phase models installed in residential applications. All other parts have a limited warranty of one year for single and three-phase models installed in commercial applications, and five years for single-phase models installed in residential applications.

Protection You Can Count On

Our exclusive Protection Plus® service contract program, available in most areas, offers you and your clients the peace of mind of extended warranty protection when the manufacturer's limited warranty ends.
