- 60,000 to 140,000 BTU/HR Availability

**ROCB**

- Up to 86.5% AFUE Efficiency
- 70 to 105 kBTU

### Improved Indoor Air Quality.

By installing a Ruud Oil Furnace with an ECM Motor, a humidifier, and a humidistat, you can automatically control the humidity levels in your home, here is how:

- To remove excess humidity from your home during the cooling season, you probably turn down your thermostat to run your air conditioner more. The Oil Furnace with the ECM Motor, controlled by a humidistat, will automatically extract that uncomfortable humidity as your house is being cooled.
- In the heating season, the combination of a ECM oil furnace and a humidifier allows you to keep the thermostat set lower, because humidified air feels warmer.

### Exceeds Standard Efficiencies.

Ruud Oil Furnaces exceed standard efficiency levels by obtaining AFUE (Annual Fuel Utilization Efficiency) Ratings up to 85.9%. For energy conservation and clean air, choose Ruud high efficiency oil furnaces.

### Multiple Motor Options for Maximized Comfort.

Since airflow control is one of the most important factors in maintaining the comfort level in your home, we offer you the choice between the value line 4-speed PSC Motor or a high efficiency ECM Motor. The PSC Motor is designed to operate at 4 set speeds in order to meet your optimum temperature needs. The ECM Motor uses an advanced, variable speed motor that automatically changes speed for heating & cooling mode requirements... eliminating sudden bursts of air while providing consistent temperatures throughout your home for maximized comfort control.

### Preferred Premium Burner Brands Available.

Choose between Beckett, Carlin and Reillo premium branded burners. We understand that you may prefer one brand over another for various reasons; therefore, the choice is yours. We offer burner brand options to make your selection easier today, and to ensure swift parts availability for possible future replacement part needs.

### Heating Electrical Consumption Comparison

COST PER KW	ECM	ECM COST	PSC	PSC COST	NET
\$0.12	377 KW	\$45	820 KW	\$98	\$53
\$0.14	377 KW	\$53	820 KW	\$115	\$62
\$0.16	377 KW	\$60	820 KW	\$131	\$71

### "Constant Fan" Electricity Consumption

COST PER KW	ECM	PSC	SAVINGS	SAVINGS/HR
\$0.12	200 watts	900 watts	700 watts	\$0.08
\$0.14	200 watts	900 watts	700 watts	\$0.10
\$0.16	200 watts	900 watts	700 watts	\$0.11

### Outstanding Limited Warranty

Ruud supports its oil furnace equipment with strong limited warranties and dependable, professional service. All parts are covered by a five-year limited parts warranty, and a limited lifetime Heat Exchanger Warranty for residential applications. Refer to the Limited Warranty Card for additional details.

### Protection You Can Count On

While your Ruud equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Ruud Oil Furnace – without worrying about the cost of parts or labor for unexpected repairs. Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit [www.protectionplusonline.com](http://www.protectionplusonline.com).

### KwikComfort® Financing

Ask your Ruud contractor about KwikComfort® Financing, the easy and convenient way to finance everything associated with your Ruud equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.
