

Package Heat Pump

Model RJNL 13 SEER 3-6 Tons
Model RJPL 14 SEER 3-5 Tons

*There are
some things
in life
you can
always
rely on.*

RJNL/RJPL Series Package Heat Pump Models

- High-efficiency 13 and 14 SEER rating for economical heating and cooling
- Available in both single-phase and three-phase models, and in capacities ranging from 3 through 6 tons
- Uses common roof curbs and is easily adaptable to either down discharge or side discharge to accommodate almost any installation requirement
- Full perimeter baserail, with forkable lifting slots, provides handling flexibility
- Externally mounted refrigerant gauge ports allow for easier diagnostics
- Service and installation time is reduced due to simple, removable panels that give quick access to the filter, blower, electric heat, compressor and control compartments

Ruud is one of them.

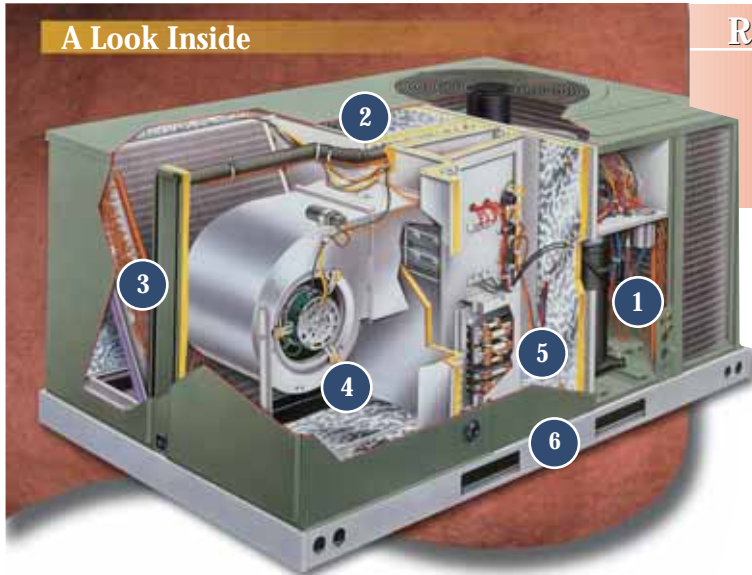

Quality That Endures

The Ruud *Commercial Series* 13 and 14 SEER Package Heat Pumps combine money-saving efficiency, whisper-quiet operation, environmental-friendliness and superb reliability to bring you peace of mind – year after year. Nothing performs more reliably than a Ruud Package Heat Pump. It's that simple.

earth friendly refrigerant

The Features You Want

1. The Compliant Scroll[®] Compressor

Uses an advanced technology that has fewer moving parts, is quieter, and longer lasting.

2. Durable Cabinet/Water Management

The low-profile cabinet features a durable powder-paint finish for superior protection from the elements. Louvered panel kits are also available for added protection of the condensing coil.

Water Management:

- One-piece top over indoor section
- Drawn, painted durable base pan
- 1" raised flanges for supply/return air connections

3. 1" Factory Installed Filter

There are also provisions for field installed 2" filters.

4. High Static Motor Options

Direct or belt-drive options available to accommodate design conditions up to 1.5" of external static pressure..

5. Optional Electric Heater Kits

Factory or field installed kits available up to 24 kW.

6. Forkable Base Rails

Allows for easy maneuvering and installation.

Limited Warranty Information

All of our Ruud package units were developed with reliability and durability in mind. The RJNL and RJPL models feature a 10-year conditional compressor warranty, for single-phase models installed in residential applications. A five-year compressor warranty applies to all single and three-phase models installed in commercial applications. All other parts have a limited warranty of one year for single and three-phase models installed in commercial applications, and five years for single-phase models installed in residential applications.

Protection You Can Count On

Our exclusive Protection Plus[®] service contract program, available in most areas, offers you and your clients the peace of mind of extended warranty protection when the manufacturer's limited warranty ends.
