GET COMFORTABLE WITH A DESIGN YOU CAN COUNT ON AND AN ENERGY BILL THAT'S EASY ON YOUR BUDGET

Depend on the **Ruud High-Efficiency RHLL Air Handler** to deliver energy-efficient comfort to your home. The unit is designed to help save you money on utility bills while quietly enhancing indoor air conditions.

RUUD.COM

RHLL SERIES

Advanced Comfort

Customize the condition of your home's air. The Ruud High-Efficiency Air Handler adjusts airflow in the home to help control humidity. Airflow can be set for specific needs, so your home feels just the way you want it to.

Reduce Energy Bills

Reducing your monthly energy bills is easier than ever with the Ruud High-Efficiency Air Handler. The unit is designed to exceed minimum efficiency standards, which will help lower your monthly utility bill.

Reliability and Durability

Solid construction ensures quiet operation and provides quality assurance backed by a 10-year conditional parts warranty.

RELY ON RUUD.™

RELY ON RUUD.™

For more than a century, Ruud has been a **name synonymous with reliability**. We engineer our air handlers with durability in mind, testing and retesting to guarantee a superior product. In addition, we work hard to bring you energy-efficient products that reduce your monthly energy costs, so you can be sure you're getting long-lasting value and comfort with any Ruud product you purchase.

EXPERIENCE THE BENEFITS OF GUARANTEED COMFORT

At Ruud, we understand the needs of everyday living, which is why the Ruud RHLL Air Handler was designed to provide homeowners like you highly efficient operation with improved energy savings and greater comfort.

Energy Savings The Ruud RHLL Series Air Handler is designed for high performance, exceeding the standard efficiency requirements and, in many cases, enhancing the efficiency rating of your outdoor air conditioning unit.

Humidity Control A new Ruud Air Handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

Efficient Heating & Cooling Ruud Air Handlers also feature a flexible design that allows them to meet the needs of a variety of systems. Your contractor will recommend a unit that will best meet your home's airflow needs. The factory-installed indoor cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing result in fewer maintenance calls.

THE REWARDS OF RUUD QUALITY & DURABILITY

Quiet Operation The Ruud RHLL Series Air Handler is designed with a sturdy steel cabinet with one inch of foil-faced insulation, offering excellent thermal and sound insulation.

Adaptable Design The 4-way convertible design of Ruud Air Handlers allows the unit to fit in with the design of your home.

Optional Electric Heat When a heat pump is paired with the unit, Ruud Air Handlers can also provide efficient heating for your home. An optional electric heater kit can be added to keep you warm all winter long.

Simple Service Ruud Air Handlers have been engineered to provide your technician easy access to all internal components, helping any service time stay short and simple.
