RP14 *ACHIEVER*[®] SERIES

COOLING EFFICIENCY: 14 SEER / 11.5 EER

HEATING EFFICIENCY: 8.2 HSPF

Quiet and Efficient

Our new heat pumps are engineered to perform both efficiently and quietly, delivering indoor comfort you can count on when you need it most.

Exceptional Quality and Reliability

Our *Achiever*[®] Series includes features that help fight corrosion, reduce leaks and enhance the overall strength of your heat pump so you can be confident in the way it performs.

RELY ON RUUD.™

We Thought of Everything... And Then Some

The Ruud *Achiever*® Series Heat Pumps were developed using our 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your Ruud Heat Pump to bring you and your family years of comfort.

Count on Staying Comfortable in Every Season

A smart, efficient design makes the Ruud *Achiever*® Series Heat Pump one of your best options for staying comfortable inside. Each new unit includes a generous list of features that work together to bring you quiet, efficient and reliable indoor comfort.

Reliable and legendary ① scroll compressor technology makes the *Achiever*® Series as efficient as it is durable. The ② optimized fan orifice also contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time. And built-in defrost capabilities mean less time defrosting and more time warming your home.

A quieter and more durable unit starts with our smart new ③ composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays black for years to come. Our enhanced mufflers and improved refrigerant tubing design also contributes to quieter, more reliable operation. For added strength, ④ curved louver panels and ⑤ rugged corner posts on the exterior do an excellent job protecting the inside. And optimized reversing valve sizing helps increase the life of your system.

Curb appeal is not lost on our new *Achiever*® Series. Our heat pumps look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

Fast and accurate installation and maintenance means your savings start with the installation of your new unit. Our *Achiever*® Series Heat Pumps are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

For over 100 years, Ruud has provided trusted, long-lasting solutions. We have made a habit of delivering reliable heating & cooling products focused on keeping you comfortable.
