

MODEL: S802V

Upflow/Horizontal

GAS FURNACES

The Sure Comfort S802V Gas Furnace is designed for years of worry-free comfort. It's also quiet, so you can stay focused on what matters most.

- **Efficiency and Comfort** are achieved with the two stage variable-speed motor – it delivers the right amount of heat for a more comfortable home and a lower utility bill.
- **Reliability** is something we take seriously. That's why our gas furnaces are engineered with the exclusive Direct Spark Ignition System which is the most reliable ignition system in the industry and ensures that your furnace will light right every time.
- **Peace of Mind** comes with the the S802V Furnace. Patented features ensure year-round reliability and the 10 year conditional parts and limited lifetime heat exchanger warranty means you're covered!

GAS FURNACES

Reliability is very important to your family's comfort. The proven direct spark ignition (DSI) used on Sure Comfort furnaces is one of the most reliable systems available today. This technology is the same proven design used on gas ovens and stoves. The patented heat exchanger is quick and easy to clean – when needed – by your local independent Sure Comfort Dealer. And a clean furnace is a long-running furnace.

Greater Comfort and performance is what you will get because of the two-stage operation that offers a more consistent indoor environment – keeping cold spots to a minimum. The two-stage heating design primarily operates on low speed, only temporarily switching to high during peak cold-weather conditions. And a variable-speed fan motor moves at different speeds to efficiently control air flow for a more comfortable environment.

Quiet operation is the result of a tighter door seal that helps eliminate whistling. The rubber grommets on the motor mounts and a twist lock wire harness in the blower shelf were also added to this furnace. All this results in an impressively quiet furnace.

Sure Comfort® is a new name in home comfort offering tried and true air conditioners, heat pumps, furnaces and air handlers and package units to meet the needs of your family and your budget. With advanced features, impressive performance and great warranties that all come standard, you can enjoy solutions that keep your family comfortable every day.

**For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local Contractor or go to SureComfort.com for a copy of the product warranty certificate. Conditional warranties must be registered through registermyunit.com.*

*** Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local Contractor or go to SureComfort.com for a copy of the product warranty certificate. Conditional warranties must be registered through registermyunit.com.*
