R801T DOWNFLOW *ACHIEVER PLUS*™ SERIES 80% AFUE*

Peace of Mind

In addition to many features to ensure years of reliability, our new gas furnace is backed by some of the best warranties in the industry.

Reliability

We're serious about the quality and reliability of our products. That's why our gas furnace is engineered with the exclusive PlusOne™ **Ignition System**, one of the most dependable ignition systems on the market.

Efficiency

A single-stage constant torque motor delivers the right amount of heat for a more comfortable home and a lower utility bill.

We Thought of Everything... And Then Some.

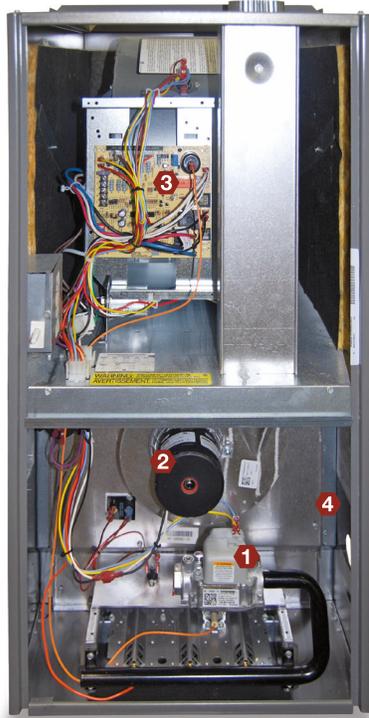

The Ruud *Achiever Plus™* Series Gas Furnace was developed using our 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your Ruud gas furnace to bring you and your family years of comfort.

We Did the Work So You Can Stay Comfortable

Our gas furnace line was already recognized as best in its class**, but that didn't stop us from making it better. We designed our new *Achiever Plus™* Series Gas Furnace to provide your home with reliable, easy-to-maintain and quiet comfort for years to come.

Reliability is essential to your home comfort. That's why we've engineered our gas furnace with the **1 PlusOne™ Ignition System**. Our **Direct Spark Ignition** is a Ruud-exclusive feature that's nine times more reliable than most hot surface igniters. It's also the same proven design used in commercial HVAC equipment and gas home appliances. Our patented heat exchanger is quick and easy to clean – when needed – by your local independent Ruud Dealer. And a clean furnace is a long-running furnace.

Increase your energy savings with a new gas furnace from Ruud. Our R801T delivers 80% AFUE, which means 80% of the fuel in your furnace is converted to heat. The **2 constant torque ECM motor** maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor.

Fast and accurate diagnostics are a big benefit to both you and your dealer. The Ruud *Achiever Plus™* Series Gas Furnace features **3 PlusOne™ Diagnostics**, our industry-first 7-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

Hassle-free installation saves you and your dealer time and trouble. The **4 34"** cabinet fits nicely in tight spaces allowing for both new construction and retrofit installations.

RELY ON RUUD.™

*Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency.
