

MSA Series

MSA Medium Silhouette

Air Defrost

The MSA unit cooler is ideal for meat, produce, fish or dairy storage walk in coolers in warehouses and supermarkets where temperatures of +35°F or higher are required.

The draw-thru air flow design coupled with fin spacing of 4 per inch assures uniform air distribution.

Removable end panels allow easy access to refrigerant connections. There is ample room within the end compartment for mounting the expansion valve.

MSA unit coolers are designed in modular fashion allowing interchangeability of fan guards and motors on all units.

Features:

LONG LIFE AND RELIABILITY

- 4FPI
- Available with PSC or EC motors
- Motor bearings are lubricated for the life of the motor
- Motors have built-in overload protection
- Coils constructed of Copper tubes and Aluminum fins

QUALITY

- Fans and motors are specially selected for quietness
- UL & C-UL listed, NSF-approved
- Coils tested, dehydrated and sealed at the factory
- Fan guards exceed OSHA requirements

SERVICEABILITY

- Removable end panels for easy access
- Separate fixed defrost and fan delay control factory wired and mounted for optimum performance of each control.

Nomenclature:

(1) T.D is the difference between the box temperature and the refrigerant temperature.

(2) Frosting conditions

(3) Refrigerant charge is based on LBS of R-22
